Big Wave Campers Custom Van Stock

Lichfield Road
Birmingham
West Midlands, B6 5RW

This van is awaiting its custom build specification by you, the customer. This is where you can choose the interior colours of your own campervan, such as the units, worktop, trim, carpet lining, flooring, tambour doors, curtains, fridge, wheels, roof and upholstery, as well as any additional extra modifications we supply. To go through this route, it is as easy as picking your donor van from our website and placing a £500 refundable deposit to secure said van. We will then send you our online custom build brochure, where you are able to pick your specification making the campervan bespoke to yourselves. You can also visit one of our showrooms, where we have sample rooms and built campervans to help you choose your specification. This is a great opportunity to purchase your dream campervan at a great price. If you require more information on this process or our donor stock, please give us a call or send us an email and we will be more than happy to help!
